

Medication Adherence Ultra-Secure Starter Kit

Medication Adherence is more important than ever. This dispenser helps caregivers of Alzheimer's and dementia patients by keeping the patient medication intake on track, increasing their dignity, independence, and quality of life. The Automatic Medication Dispenser holds 28 slots of medicine, creates an audible alert when it's time to take it, and sends a push notification to authorized users when a dose is missed. The included Twist HD cam can help verify when medication is taken and the patient's health condition.

- 1x Security Shuttle
- 1x Twist HD Camera
- 1x Automatic Medication Dispenser

Network Security

Creates a closed network with advanced security measures to protect your privacy

24/7 Intelligent Recording

The recording automatically filters out unchanged scenes

Night Vision

Automatically switches to infrared night vision mode under low-light conditions

Motorized Panoramic View

Provides you a 360 degree motor-driven panoramic view

Medication Adherence

Uses sensors to track your medication intake.

KEY FEATURES

- Designed for post-op patients and people suffering from chronic disease, memory loss, dementia, or Alzheimer's disease
- Can also help keep track of supplement and vitamin intake
- The Home8 mobile app makes it easy for you or a caregiver to monitor a loved one's medication intake
- Twist HD cameras provide 360 degree view to make it easier to locate a loved one in case of emergency
