

Step 1 : Assemble your device and accessories

Unpack all of your hardware in the same room as your home router.

Package Contents :

Step A

1 RF Dongle
2 USB Adapter

Step B

3 Security Hub
4 Ethernet Cable
5 Power Adapter

Step C

6 Medical Alert Device
7 Lanyard
8 Mini Talking Camera

System equipped with Oplink and Mivalife components.

Step A: Connect 1 RF Dongle to 2 USB Adapter.

Step B: a. Connect Step A to the 3 Security Hub.
b. Connect 4 Ethernet Cable between the Security Hub and your home router.
c. Plug in 5 Power Adapter.

Step C: a. During system activation, please keep the 6 Medical Alert Device and 8 Mini Talking Camera close to the Security Hub. (less than 10ft away)
b. Attach 7 Lanyard.
c. Connect the included power adapter to the Mini Talking Camera and plug it in.

The Security Hub needs to be placed on a 3-5ft (0.91-1.52m) high platform for the best communication signal.

Step 3 : Cloud-Device Activation (CDA)

1. Tap the "Activate Now" button.
(Activation process takes approximately 2 minutes)
Note : When the automatic activation process fails, the app will advise you to scan the Security Hub QR code, located at the bottom of the device to continue.

2. When you see "System is ready!", the system CDA is complete.

Step 2 : Set up your Smartphone

Warning:
Before downloading the Home8 App, please disable the Auto-Lock feature in your smartphone to avoid sleep mode interruption.

Next:

1. Connect your Smartphone to Wi-Fi.
2. Download the Home8 app from the App Store, Google Play, or Windows store.
3. Follow the steps to create an account.
4. Follow the instructions for OPU/Shuttle Setup.

Step 4 : Test the range of your device

Test the device signal range.

Medical Alert Device

1. Take the device to the room you want to use it in.
2. Test the device by quickly pressing the center button; if you receive a push notification saying "Emergency", your device is within range.

Mini Talking Camera

Access your Home8 app, tap on the Video, wait until you see live streaming video from the app, it is connected to the system.

The Home8 app gives you complete access to security, safety, video, care and home control from your smartphone.

Home8 ActionView System Interactive and Collaborative Service

Get started with the Home8 app

1 Sidebar Menu

The Sidebar Menu icon ≡ on the upper left corner manages options such as editing device status, adding users/contacts for collaborative notification as well as viewing the history of notifications, etc.

2 Web Store

The system is easily expandable. There are different types of smart devices and IP cameras for comprehensive protection you can choose from.

5 VideoGram

Shows a list of triggered events and allows for the playback of event recordings. You can directly report or share the video via outlook/email, IM, FB, and other social medias from the app.

6 Automation & Energy Control

Remotely control your garage door or home appliances with our automation/Energy Systems. You can get video notifications, see it in action and monitor the power consumption of your devices.

7 Temperature

You can integrate your existing smart devices such as Amazon Echo, Nest and Honeywell etc. into the system and control them directly from Home8 app.

8 Medication

We offer medication reminder and dosage accuracy solution to help your loved one live an independent living.

9 Activity

Showing the timeline of motion and activities detected by the sensors/cameras.

10 Care24 GPS

Allows the system owner to locate individuals with the Care24 app. The Care24 App utilizes the user's smartphone as a fall detector, panic button, GPS locator and geofence.

11 User Management

Using simple smartphone number input, you can easily add Authorized Users, Emergency contacts, and Local Authorities for different access levels.

3 Device Management

You can easily add new devices to the system with a simple QR code scan. We also provide real time device and battery status.

Main Menu:

4 Video Verification & Action Control

You can verify event in real time via camera and control automation devices such as light, thermostat and garage door at the same time.

Multiple location video monitoring and alarms can be aggregated to the home8 smartphone app, and you can swipe the mobile screen for more videos.

aggregated to the home8 smartphone app, and you can swipe the mobile screen for more videos.
