Quickstart Guide | H21012

Step 1 : Assemble your device and accessories

Unpack all of your hardware in the same room as your home router.

Package Contents :

1. RF Dongle
2. USB Adapter
3. Security Hub
4. Ethernet Cable
5. Power Adapter
6. MEMS Valuables Tracking Sensor
7. Wi-Fi Camera

System equipped with Oplink and Mivalife components.

Step A: Connect ❶ RF Dongle to ❷ USB Adapter.

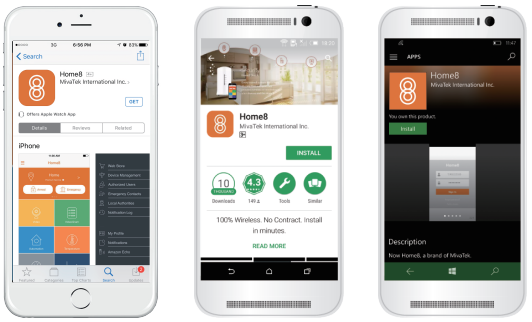

Step B: a. Connect Step A to the ❸ Security Hub*.
b. Connect ❹ Ethernet Cable between the Security Hub and your home router.
c. Plug in ❺ Power Adapter.

Step C: a. During system activation, please place the ❻ MEMS Valuables Tracking Sensor and ❼ Wi-Fi Camera close to the Security Hub (preferably less than 10 ft).
c. Connect the included power adapter to the Wi-Fi Camera and plug it in.

* The Security Hub needs to be placed on a 3-5ft (0.91-1.52m) high platform for the best communication signal.

Step 2 : Set up your Smartphone

Warning:
Before downloading the Home8 App, please disable the Auto-Lock feature in your smartphone to avoid sleep mode interruption.

Download on the App Store | GET IT ON Google Play | Download from Windows Store

Next:

1. Connect your Smartphone to Wi-Fi.
2. Download the Home8 app from the App Store, Google Play, or Windows store.
3. Follow the steps to create an account.
4. Follow the instructions for OPU/Shuttle Setup.

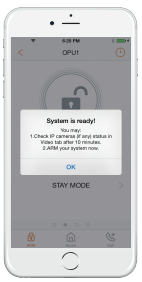

Step 3 : Cloud-Device Activation (CDA)

1. Tap the "Activate Now" button.
(Activation process takes approximately 2 minutes)

Note : When the automatic activation process fails, the app will advise you to scan the Security Hub QR code, located at the bottom of the device to continue.

2. When you see "System is ready!", the system CDA is complete.

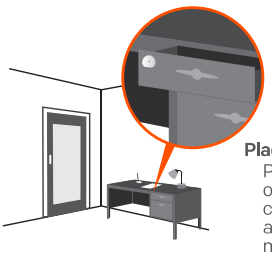

Step 4 : Test the range of your device

Test the device signal range.

MEMS Valuables Tracking Sensor

1. Pull and remove the plastic strip to initiate battery contact of the device and take it to the room you want to use it in.
2. Give your MEMS Valuables Tracking Sensor a good shake, then navigate to ≡ > Device Management > Tracking Sensor on your mobile app.

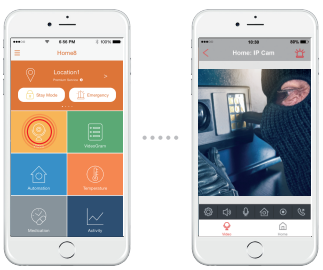

The time stamp will be updated if your tracker is in range.

Place the MEMS Valuables Tracking Sensor
Place the MEMS Valuables Tracking Sensor on places like jewelry box, firearm storage, collectables, important documents,etc., anywhere you want to keep track of movement.

Wi-Fi Camera

Access your Home8 app, tap on the Video, wait until you see live streaming video from the app, it is connected to the system.

Quickstart Guide | H21012

1 App-Total Protection

The Home8 app gives you complete access to security, safety, video, care and home control from your smartphone.

Home8 ActionView System Interactive and Collaborative Service

Get started with the Home8 app

1 Sidebar Menu

The Sidebar Menu icon ≡ on the upper left corner manages options such as editing device status, adding users/contacts for collaborative notification as well as viewing the history of notifications, etc.

2 Web Store

The system is easily expandable. There are different types of smart devices and IP cameras for comprehensive protection you can choose from.

5 VideoGram

Shows a list of triggered events and allows for the playback of event recordings. You can directly report or share the video via outlook/email, IM, FB, and other social medias from the app.

6 Automation & Energy Control

Romotly control your garage door or home appliances with our automation/Energy Systems. You can get video notifications, see it in action and minitor the power consupmtion of your devices.

7 Temperature

You can integrate your existing smart devices such as Amazon Echo, Nest and Honeywell etc. into the system and control them directly from Home8 app.

8 Medication

We offers medication reminder and dosage accuracy solution to help your loved one live an independent living.

9 Activity

Showing the timeline of motion and activities deteced by the sensors/cameras.

10 Care24 GPS

Allows the system owner to locate individuals with the Care24 app. The Care24 App utilizes the user's smart-phone as a fall detector, panic button, GPS locater and geofence.

11 User Management

Using simple smartphone number input, you can easily add Authorized Users, Emergency contacts, and Local Authorities for different access levels.

3 Device Management

You can easily add new devices to the system with a simple QR code scan. We also provide real time device and battery status.

Main Menu:

4 Video Verification & Action Control

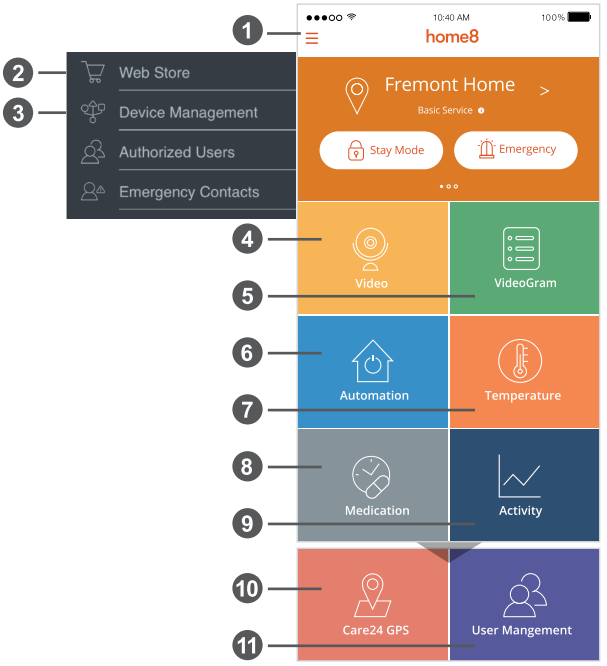

You can vierify event in real time via camera and control automation devices such as light, thermostat and garage door at the same time.

Multiple location video monitoring and alarms can be aggregated to the home8 smartphone app, and you can swipe the mobile screen for more videos.

aggregated to the home8 smartphone app, and you can swipe the mobile screen for more videos.

For more IP camera options, please visit home8alarm.com/store.

Upgrade to premium service to enjoy video recording, reporting, sharing, direct calling from your smartphone.
