## Interactive Home Safety System Quickstart Guide

Model No. S12013

### What's inside:

**1x Security Shuttle**

1x Power Adapter

1x Ethernet Cable

1x USB Thumbdrive

**1x Mini Cube HD Camera**

1x Power Adapter

1x Power Cable

4x Mounting Accessories

**1x Fire + CO Alarm Sensor**

2x Double-Sided Tapes

1x Battery (CR123A)

4x Mounting Accessories

**1x External Siren**

6x Mounting Accessories

1x Double-Sided Tape

**1x Water Leak Sensor**

2x Double-Sided Tapes

1x Battery (CR123A)

4x Mounting Accessories

Broadband internet connection, iOS or Android phone and home router required.

## Schritt 1: Setzen Sie Ihre Hardware zusammen

Entpacken Sie alle Hardware innerhalb von zwei Metern Ihres Heim-Routers.

- Verbinden Sie das Sicherheits-Shuttle an Ihren DHCP-aktiven Router mit dem beigegefügt Ethernet-Kabel.
- Schließen Sie das Sicherheits-Shuttle und den Mini Cube HD-Kamera-Netzadapter an und stecken Sie sie ein.
- Setzen Sie Batterien in Ihren Sensor für Wasserlecks sowie Feuer und CO ein.
- Stecken Sie die externe Sirene in eine Steckdose.

## Schritt 2: Stellen Sie Ihr Smartphone ein

Ihr Smartphone wird den Einstellmodus unterbrechen, sobald es in den Schlafmodus verfällt. Deswegen vor der Registrierung Ihrer Geräte das Autolock-Feature auf Ihrem Smartphone deaktivieren. Nach der Einstellung Ihres Systems können Sie es wieder aktivieren.

**Weiteres:**

- Verbinden Sie Ihr Smartphone mit Ihrem Heim-Wi-Fi.
- Laden Sie die Home8-App aus dem App-Store oder Google-Play herunter.
- Befolgen Sie die Anweisungen auf dem Bildschirm und erstellen Sie Ihr Account.

### Schritt 3: Geräte anbringen

**Bevor Sie Ihre Sensoren anbringen, gehen Sie sicher, dass sie innerhalb des Sicherheits-Shuttle-Bereich sind.**

- Testen Sie Feuer- und CO-Alarmsensor durch dreisekündiges Drücken und Halten des TEST-Knopfes am oberen Teil. Das LED sollte blinken.
- Öffnen Sie das Batteriefach des Wasserlecksensors. Falls Sie eine Benachrichtigung erhalten, dass man sich am Gerät zu schaffen macht, ist es innerhalb des Sendebereichs.
- Stecken Sie die externe Sirene in eine Steckdose. Tippen Sie auf die Notruftaste im Hauptbildschirm der Home8-App, um eine Notruf-Benachrichtigung zu senden. Wenn Ihre externe einen Ton von sich gegeben hat, ist sie innerhalb der Reichweite, und Sie können die Sirene montieren.

Ihre externe Sirene kommt mit einer vorinstallierten Backup-Batterie. Um die Verwendung der Backup-Batterie zu beginnen, ziehen und entfernen Sie den Plastikstreifen, um den Batteriekontakt zu initiieren.

**Bevor Sie Ihre Kameras anbringen.**

- nehmen Sie sie in den Raum, in dem Sie sie nutzen möchten und stöpseln Sie sie ein.
- Warten Sie auf die Verbindung Ihrer Kameras.

Falls Sie ein Video sehen, Kamera platzieren und geniessen.

## How can I backup recorded video?

You can backup your recorded video by using any of the following methods.

- By setting automatic backup to Dropbox. (Dropbox account needed)
- By sharing your recorded video from VideoGram to your appointed method.

## How do I retrieve my Home8 Mobile app password?

Go to the sign-in page of your Home8 app and tap "Forgot password?". Follow the instruction on screen to enter your phone number. You will then receive an access code via SMS. After input an Access Code that App requested, you can then reset the password by yourself. You will also receive a confirmation email after successfully reset your password.

## How can I be certain my personal information is secured?

Our first level of security is authentication and your password is encrypted when you sign in to your account. At the next level where all data is transmitted, including videos, images, as well account information, bank-level AES data encryption is used.

## How can I be sure unauthorized people are unable to look at my videos on the cloud?

With your privacy in mind, all data is encrypted with bank-level security, and each user has his/her own account to access the video. Our system alerts you and your authorized users when it detects login attempts from unauthorized smart devices.

## How many locations can I manage from my Home8 app?

Home8 app is built to support multi-location management. You can manage as many locations as you would like, and we do not place a limit on the number of Home8 Systems you can purchase.

## If I lose my smart device, what should I do to protect my Home8 account?

We recommend you to change your password as soon as possible by using other smart device with Home8 app installed to sign in to your account to make the change to your password. Alternatively, you may also contact us to disable your account for you.

## Is there a place I can view the user manual online?

Yes, visit [www.home8alarm.com/download](http://www.home8alarm.com/download) , and then access user manuals.

## What are the requirements prior to purchasing an Home8 System?

Because Home8 System is a fully IoT interactive system, it will require the following:

- Broadband Internet connection. (dial-up connections are not supported)
- DHCP enabled router with an available LAN port.
- Smart devices with internet connection.

## What can I do if a camera is offline?

If a camera is showing as "offline", try power cycle on the camera first and wait approximately two minutes, if the offline situation persists, try moving the camera closer to the Security Shuttle and power cycle the device again. After tried the methods above, if the offline status is still not resolved, please contact our Technical Support for further troubleshooting assistance.

## What can I do if my system is offline?

First, try checking your internet connection, if the connection is working properly, then unplug the network cable from your Security Shuttle for 10 seconds, and then reconnect it. If the Security Shuttle is still offline after 5 minutes, please contact our Technical Support for further troubleshooting assistance.

# Troubleshooting Tips

## Are your devices listed in your app?

If you're having trouble installing your devices, see if they're listed in your Home8 app:

- Navigate to ☰ > **Device Management** to see if all your devices are listed.
- Tap + next to the device category and follow the on-screen instructions to add any missing devices.

## Are your devices communicating with Security Shuttle?

- If your devices don't connect to Security Shuttle, they might be too far away. Take them to a location that's closer to Security Shuttle and try again.
- If they do connect, you'll know the range of your device and where to install a range extender.
- Alternatively, you can move Security Shuttle closer to your device.
- If your devices still don't communicate with Security Shuttle, even when they're in the same room, navigate to ☰ > **Device Management** > + on the Home8 app to add your devices again.

## Do you need to reset your camera?

If your camera isn't communicating with Security Shuttle, your app may ask you to reset your camera.

- Locate the pinhole on the left side of the camera.
- Insert a pin and hold for 3-5 seconds until you hear a beep.
- Return to the app and follow the onscreen instructions.
