• Tap + next to the device category and follow the on-screen instructions to add any missing devices

Are your devices communicating with Security Shuttle?
• If your devices don’t connect to Security Shuttle, they might be too far away. Take them to a location that’s closer to Security Shuttle and try again.
• If they do connect, you’ll know the range of your device and where to install a range extender.
• Alternatively, you can move Security Shuttle closer to your device.
• If your devices still don’t communicate with Security Shuttle, even when they’re in the same room, navigate to ☰ > Device Management > + on the Home8 app to add your devices again.
