RF433 Transceiver / Dongle Add-on Device Quickstart Guide

Model No. DGL1130

What's inside:

1x RF433 Transceiver / Dongle

1x 3 Port USB 2.0 Hub

All Home8 add-on devices have to work with Home8 systems.

Assemble your device and accessories

1. Unpack your device and accessories.
2. Plug in RF433 Transceiver / Dongle vertically to the included USB Hub.
3. Make sure the Security Hub is powered off before connecting the USB Hub to it.
4. Plug in the USB Hub to the Security Hub.
5. Power up the Security Hub.

Now you can add and control RF sensors !
