1x Battery (CR123A)
1x Double-Sided Tape

1x Battery (CR123A)
2x Double-Sided Tapes
Mounting Accessories

V1.0

Step 1: Connect to Network
Unpack all of your hardware within 20 feet of your home router for quick set up.

1. Connect the Gateway to your router with the included Ethernet cable, then power on.

2. Install batteries and plug in power adapters to devices and sensors.

---

Step 2: Set up your smartphone

1. Go to Wi-Fi settings and connect your smartphone to Wi-Fi.

2. Download the Home8 app from the App Store or Google Play Store.

---

Step 3: Activate your system

1. Select Menu icon on top left on the App and tap “Add Device” to activate system.

2. Find the QR Code Sticker on the Gateway and follow the instructions on your app.

3. When you see the “System is ready!” message, Congratulations, your system setup has completed!

---

Step 4: Place your devices

**Twist HD Camera**
Connect the included power adapter to the Camera. Check the Light indicators, The left light should be Solid blue as power on. The right light should be blink blue if camera connect to Gateway successfully.

**Door + Window Sensor**
Use screws or Double-sided tape to attach sensor. Maximum distance between two part is 1/4 inch.

**External Siren**
Plug the power line. Place the siren.
**Step 4: Place your devices**

**Infrared Motion Sensor**
Place the device in an area with no direct sunlight. The motion sensor has a 3 minute cooldown period.

**Place Your Fire/CO Siren Extender Sensor**
Test the device by pressing and holding the TEST button for 3 seconds. The LED light should blink.
If you receive a push notification saying “sonic detected”, it’s within range. Mount your device within 1 foot or 30cm to your existing Smoke/CO detector.

**Place your Water Leak Sensor**
Ensure the water contact prongs are placed on the surface to detect water leakage. Secure the water contact prongs to the surface. Apply the double-sided tape on the sensor and mount it safely away from the water contact prongs.

**Use your Keychain Remote to Arm/Disarm/Panic**
Press the Arm/Disarm button. The LED light should blink. You will receive a push notification on your phone saying “System is armed/disarmed by keychain remote" if remote is within range.
Hold either button for 5 seconds as trigger Panic button.

---

**Step 5: Enable your service**

1. On the home screen, tap the **Subscribe Now**.

2. Provide contact and payment method information.

3. Review order information and click **Place Order**.

**Once your subscription is successful, the system status will change to "Practice Mode" for one day.**

With our Professional Monitoring Service, after the 1-Day Practice Period, the system status will change to "In Service", you’ll receive 24/7 monitoring for your system.
